CP-44 Noida Sector 63A  
Uttar Pradesh, 201301

### SKILLS

- Java
- Spring, Spring Boot
- Experience in RESTful APIs, Exception Handling
- Spring MVC
- Proficient in MySQL, NoSQL MongoDB
- Experience in building and deploying micro-services using Spring Boot.
- Familiarity with Hibernate or other ORM frameworks.
- Strong debugging and troubleshooting skills.
- Experience with CI/CD pipelines, Jenkins
- Strong documentation skills for code and project related materials.
- Git
- Maven
- Eclipse, IntelliJ Idea, Postman, Spring Tool Suite.
- Swagger, Post Man

### EDUCATION

Bachelor Of Engineering

Rajiv Gandhi Proudhyogiki  
Vishwavidyalaya, Bhopal (M.P.)

### LANGUAGES

English

Hindi

### PROFILE

Experienced Java Developer proficient in building and deploying server-side applications using Spring Boot. Skilled in implementing Redis for efficient caching, MongoDB for robust data management, and JWT token authentication for enhanced security. Extensive background in developing applications from scratch and optimizing CI/CD pipelines for seamless deployment. Passionate about leveraging Java and Spring Boot to drive innovation and deliver high-quality solutions.

### WORK EXPERIENCE

#### Wishfy Technology Private Ltd. (Sept 2023 - Present)

##### JAVA DEVELOPER

- Developed and maintained backend services using Java and Spring Boot.
- Managed and optimized MySQL and MongoDB databases.
- Created RESTful APIs to support frontend functionality and third-party integrations.
- Integrated payment gateways, shipping services, and notification systems.
- Deployed applications on Nginx servers and managed CI/CD pipelines with Jenkins.
- Collaborated with frontend developers to ensure seamless integration of UI components with backend services.
- Conducted performance tuning to enhance application responsiveness and scalability.
- Implemented security measures for data protection and access control.
- Developed unit and integration tests to ensure code quality and resolved bugs reported by QA.

#### Incubate Software System. (March 2022 - August 2023)

##### JAVA DEVELOPER

- Experience of developing and maintaining Rest API's in spring boot.
- Comfortable in working with swagger and postman for API Testing and Validation.
- Experience of managing database end to end on MySQL workbench.
- Experience of developing complex API's with multiple filters associated with multiple tables of database.
- Experience of debugging for bugs and modifying developed API's.

### ACHIEVEMENTS

- Reduced response times by 30% through query optimization.
- Contributed to designing a scalable system architecture to handle high traffic.
- Successfully integrated multiple third-party services, enhancing platform functionality.
